

As Senior Advisor to Geoscience Australia for Aboriginal and Torres Strait Islander engagement, my role is to listen, identify, develop and deliver culturally appropriate scientific support, products and training. Focused on ensuring that high quality science is part of all cross-cultural and community engagements.

As Principal Advisor to the Global Earth Observations Indigenous Alliance. We advance an international Indigenous GEO network with dedicated Indigenous Working Groups focused on Indigenous youth, Disaster Risk Reduction, Climate Action, Indigenous Data Sovereignty and Women Empowerment, for both Indigenous and non-Indigenous scholars, practitioners and policy makers to share best practices and experiences
